Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: 1) Applicant will clarify the language of claims 34-39 to overcome rejection under 35 USC 112, e.g. by incorporating limitations of claim 35 into claim 34, and/or clarifying what elements are present in inventive alloys and what element(s) are in eutectic combination with what other element(s).

2) Applicant will attempt to overcome Gu reference, e.g. by indicating that inventive alloys are directed largely to Hf containing materials that do not require presence of Zr, and contrast claimed material to that disclosed by Gu.

3) It was noted that filing date of present application is prior to that of application 10/946,132, which contains conflicting claims..
